PROJECT NEWSLETTER

November 2024

PROJECT OUTPUTS

We held a meeting with the project key and sectoral experts to discuss the planning of the upcoming training on 14 November 2024

We held the 42nd Operational Coordination Meeting on 29 November 2024, with the participation of the Directorate of Climate Change, the European Union Delegation to Türkiye and the Directorate General of European Union and Foreign Relations Authority. During the meeting, we discussed the experts' contracts, the planning of training and events, and the addendum for the extension.

We organised the sixth sectoral training focusing on tourism and cultural heritage, energy, and biodiversity and ecosystems in Nevşehir on 12-13 November to raise awareness among local stakeholders. The training was attended by local stakeholders from public institutions, the private sector, and universities, and it covered topics such as sectoral adaptation options and recommendations as well as good practices and sectoral risks.

This project is co-funded by
the European Union and the Republic of Türkiye

On 18 November 2024, we organised a meeting with the Climate Change Adaptation and Local Policies Department of the Ministry of Environment, Urbanization and Climate Change and the project finance expert to discuss the climate financing strategy for the implementation of the UASAPs.

The Climate Portal, an online platform providing decision-makers and individuals with accurate and up-to-date information on climate change, was officially launched at an event in Ankara on 28 November 2024. The event, attended by around 170 people, also received coverage in the local press.

GRANT PROGRAMME

The second round of monitoring visits were conducted under the Grant Programme. Mersin Metropolitan Municipality and Mersin Chamber of Commerce and Industry were visited in November 2024.
