Enhancing Adaptation Action in Turkey Project

İKLİME UYUM

Enhancing Climate Adaptation Action in Turkey Project has launched on 9 October 2019 with the collaboration between the Ministry of Environment and Urbanization (MoEU) and the United Nations Development Program Country Office Turkey (UNDP CO Turkey).

The overall objective of the project is set as “building societal resilience by strengthening climate change adaptation, particularly at sector and urban level” while the specific purpose is to establish an enabling environment for climate change adaptation in Turkey by developing the policy, technical and operational baselines, including

- better decision-making tools for national climate change adaptation policies,
- urban adaptation planning solutions (urban adaptation strategies and action plans)
- capacity building and networking activities for climate change adaptation with the EU and the international community, and
- a climate change adaptation grant programme to implement climate change adaptation action.

The project target groups are the relevant public institutions, local governments and municipalities, regional and provincial directorates, regional development agencies, chambers, unions, professional and business organizations, universities, research institutes, and civil society organizations. The target groups of the operation include all relevant non-state stakeholders and citizens.
