This publication was produced with the financial support of the European Union and the Republic of Turkey. The contents of this publication are the sole responsibility of UNDP Turkey and can in no way be taken to reflect the views of the European Union and the Republic of Turkey.

This project is co-funded by  
the European Union and the Republic of Turkey.

## ANNOUNCEMENTS

Between November 28, 2022, and December 1, 2022, the first study visits of the project will take place in the cities of Valladolid and Madrid, Spain.

## ACTIVITIES

The Project Steering Committee Meeting took place on October 6, 2022. During the meeting, the progress of the project and the planned activities were shared with the participants.

The Operation Coordination Unit Meeting was held on November 2, 2022. During the meeting, the progress of the project and the planned activities were shared with the participants.

Financial Mechanisms and Modeling Consultative Meetings were held between October 10 and October 14, 2022. The climate finance needs of the sectors were discussed with stakeholders from the public sector, academic institutions, private sector, and civil society organizations. The meetings addressed the evaluation of existing financial models to meet the resource requirements for adaptation activities under the Strengthening Climate Change Adaptation Action in Turkey Project. They also focused on developing new financial models and mechanisms to enhance the contributions of various actors, including the private sector, to adaptation activities.

Project participated in COP27, held in Sharm El Sheik, Egypt. On November 12, discussions about adaptation actions in Turkey took place, followed by a session on Local Governments' Climate Change Mitigation on November 15. For more information, you can access the news on our website.

## PROJECT OUTCOMES

Konya Local Climate Change Adaptation Strategy and Action Plan were presented for review on November 10, 2022.

Muğla Local Climate Change Adaptation Strategy and Action Plan were presented for review on November 11, 2022.

# ENHANCING ADAPTATION ACTION IN TÜRKİYE

Enhancing Climate Adaptation Action in Turkey Project has been launched on 9 October 2019 with the collaboration between the Ministry of Environment, Urbanization and Climate Change and the United Nations Development Programme in Turkey (UNDP Turkey).

The overall objective of the project is set as “building societal resilience by strengthening climate change adaptation, particularly at sector and urban level” while the specific purpose is to establish an enabling environment for climate change adaptation in Turkey by developing the policy, technical and operational baselines, including

- better decision-making tools for national climate change adaptation policies,
- urban adaptation planning solutions (urban adaptation strategies and action plans)
- capacity building and networking activities for climate change adaptation with the EU and the international community, and
- a climate change adaptation grant programme to implement climate change adaptation action.

The project target groups are the relevant public institutions, local governments and municipalities, regional and provincial directorates, regional development agencies, chambers, unions, professional and business organizations, universities, research institutes, and civil society organizations. The target groups of the operation include all relevant non-state stakeholders and citizens.
